Why?
- We believe technology transforms the way we teach and how students learn.

What We Do:
- Foster a deep understanding of technology integration and quality learning principles to create a rich 21st century learning environment
- Promote and foster an innovative image of the district
- Provide on-going coaching and modeling in the effective use of new and emerging technologies for all staff
- Advocate a culture of risk-taking and change to achieve excellence
- Structure coaching opportunities around the district’s and/or schools’ instructional goals and partner with classrooms to ensure an environment for learning
- Provide instructional strategies that support the implementation of the NSSEO curricula
- Analyze student data to increase student learning and problem-solve implementation barriers

How:
- Collaborate with administrative teams to reach district and/or school goals
- Partner, plan, and organize directly with teachers, therapists, and assistants to coach and model innovative instructional practices
- Mediate teacher thinking and self-reflection of teaching practices for professional growth
- Seek and share newly learned professional knowledge and practices through professional development (1:1 instruction, small group, large group)

To request services please email the Innovative Learning Coach assigned to your program.
