

What We Do:

- Partner with classrooms to ensure an environment for learning
- Support the implementation of the NSSEO curricula
- Use technology to create a rich learning environment
- Problem-solve implementation barriers
- Provide strategies to increase student engagement
- Collaborate, dialogue, brainstorm and share ideas
- Analyze student data to increase student learning
- Provide resources and information about subscription based websites
- Facilitate the use of assistive technologies to support student learning

How:

- Co-teach and model
- Work directly with teachers, therapists, assistants and students
- Observe and give feedback
- Provide Professional Development
 - Workshops
 - 1:1 instruction
 - Small group
 - Large group
