

# Pop-Up Boards

1

## Set up page

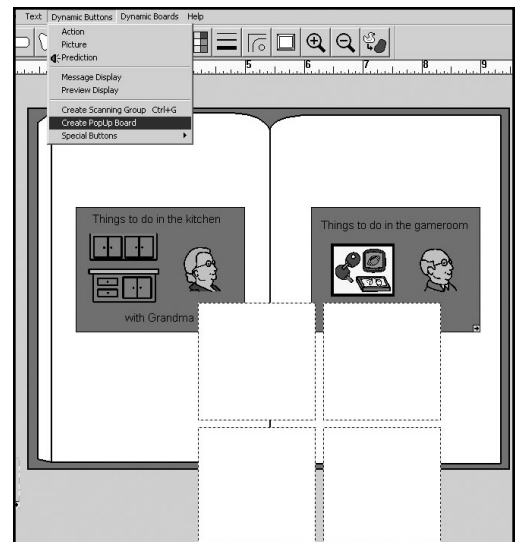

- Set up your page based on the picture on the right.
- On the left side of the book, create a button and type:  
“Things to do in the kitchen with Grandma.”
- Add the appropriate symbols.
- On the right side of the book, create a button and type:  
“Things to do in the gameroom with Grandpa.”
- Add the appropriate symbols.

2

## Create pop-up board

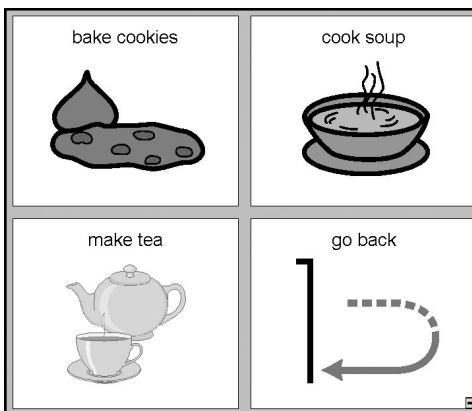

- Use the **button tool** to create four buttons below the button that says “Things to do in the kitchen with Grandma.”
- Make the buttons about 2”x2”.
- Select all four buttons.
- Go to **Dynamic Buttons - Create PopUp Board**.
- Name it something appropriate and include “pop” in the title. Save it in the My Trip to Grandma’s folder.

3

## Fill in content

- Fill in the contents of each button on the pop-up board using the picture below as a guide.

# 4

## Assign actions to pop-up board

- Double click on each of the first three buttons and assign the action(s) you want each button to have. This will typically be **Speak Message- Use Button Text** or **Speak Message - Use Text Above**.
- Double click on the fourth button (Go Back) and assign the action **Change Board - Grandma's Page 7**. Note- you could select Change Board Back but this may lead to a "dead end" if it isn't opened originally from Grandma's Page 7.

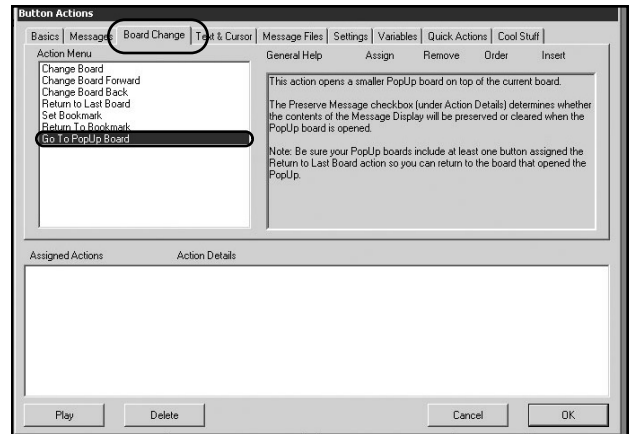

Notes: There are two additional ways to assign actions:

- Assign actions to the first button. Right click on that button and select Copy Button. Select another button or buttons. Right click and select Paste Actions.
- Revisit step 2 above. When creating the pop-up board, create one button, assign action(s) to that button. Spray that button, using the spray tool. Continue with sub-step "c" in step 2 above.

# 5

## Assign action to link to pop-up board

- Double click on the button that says "Things to do in the kitchen with Grandma".
- From the **Board Change** tab select **Go to PopUp Board** from the action menu.  
Note- this is different from Change Board, which is found on the Basics tab.
- Select the pop-up board that you just created (Grandma's kitchen pop, for example).
- Note - You can specify where you want the pop-up board to appear on the screen.

# 6

## Complete the page

- Repeat the steps for the right side of the book using the pictures below as a guide!
