A need for more professional development to further support implementation of social emotional learning and curriculum/instruction in English Language Arts and Math were on the overall top professional development needs. Coaching supports in the areas of behavior, autism and implementing Multi-Tiered Systems of Support (MTSS) were also identified as a need. NSSEO GOVERNING BOARD ANNUAL REPORT 2017-18

The board report highlighted each designated goal area and how they continue to be an important part of an ongoing continuous improvement plan that addresses the complexity of NSSEO's work and individualizing the approach to address the unique scope of learning needs of students. The emphasis for this year continues around three major priorities – instructional practices, Transition and IEP best practices. The important intersection between those key areas of focus are what drives progress focused on students. The report indicates that the goals do not work in isolation but instead are building blocks for expanding, advanced work for next year. Talk has already begun on refining assessments and growth measures, customizing tools for post-secondary planning and training, modeling, coaching and generalizing the skills reflected in IEP modules through a collaborative process and ongoing review and evaluation.
